

## **Journal Editors' Report to ANZTSR Committee Meeting February 20 2015**

1. Since our last meeting I think you all have copies of the special issue on Accounting and I have written to Fiona Verity and Phil to thank them for a substantial and useful issue.
2. The next General Issue is well on its way with 5 papers with Julian, one just returned today with 2<sup>nd</sup> round revisions, and the last one still with the author but the revisions are quite manageable
3. You will have received the Call for Editors of TSR – we have had informal interest from 2 sets of people wanting to work together as Editors - this seems a very desirable development – As I need to stand down and Ruth has already done so I think more Editors is a good thing – especially if we can cover a range of TS topics (assuming people are suitable) – maybe something to discuss
4. The formal call for the special conference issue has not yet gone out – Garth and I really need to get onto that – several people are interested in sending in papers
